Simply Perfect Water - Every Time

Say goodbye to complicated water testing and confusing setups. Easy Water Analysis makes hot tub and pool care beautifully simple. Just install the smart inline sensor -no extra adapters or tricky steps needed.

It's that simple:

- Check your water quality instantly with a glance at your phone - anytime, anywhere
- Get step-by-step recommendations and instant alerts when action is needed
- Enjoy more spa time and less time worrying about maintenance

How E.W.A. Makes Your Life Simpler

Your smart inline sensor continuously monitors the four essentials for perfect water -so you don't have to.

pH Levels

– for balanced, gentle water

Sanitizer Levels

– for crystal clear, safe results

Conductivity

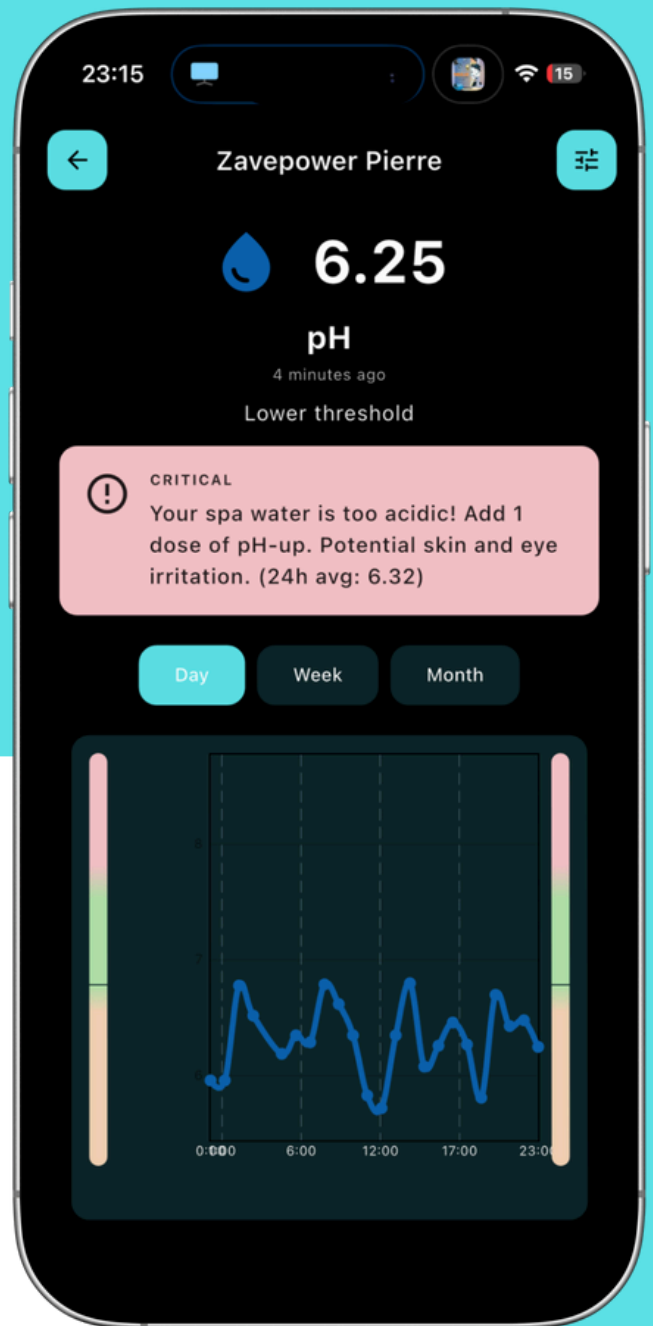

– see what's really in your water

(Released later)

Temperature

– always in your comfort zone

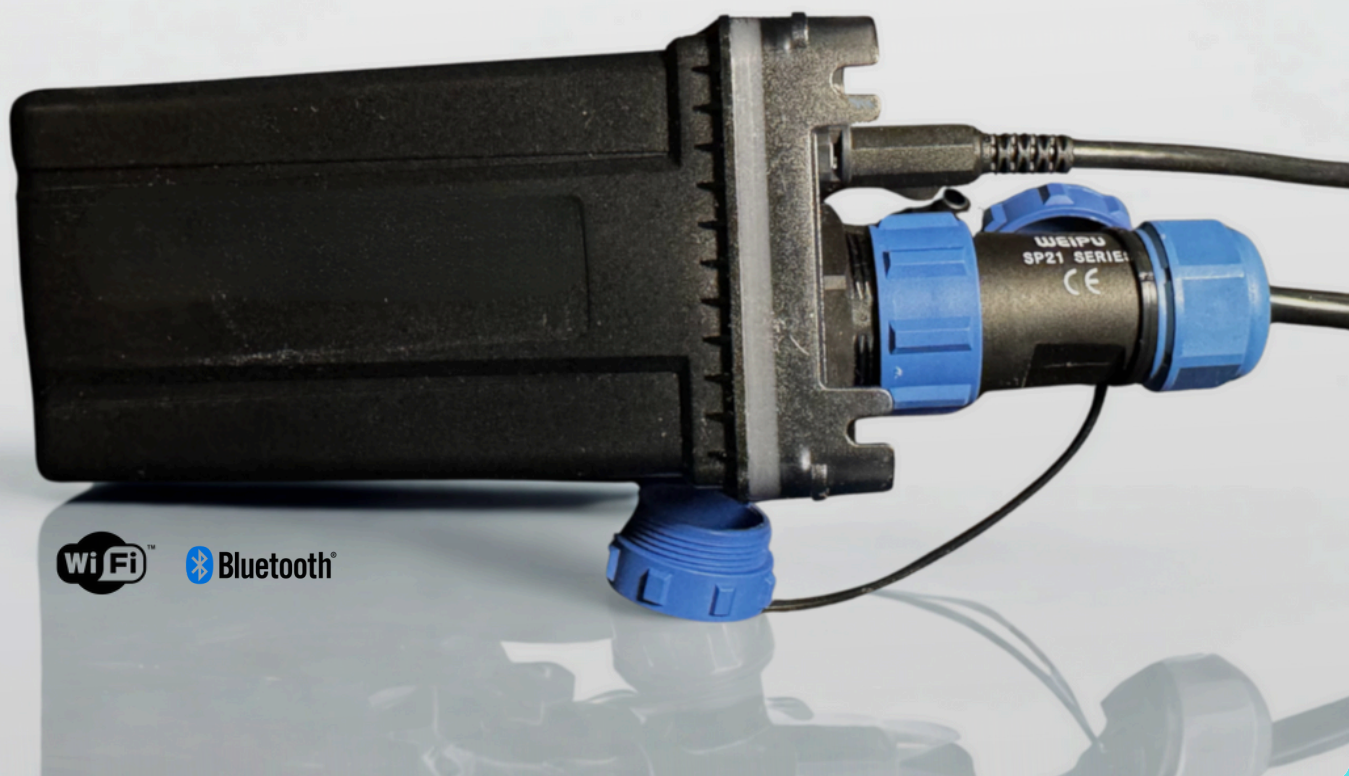

Easy Installation – Choose What Fits Your Setup

You can install E.W.A. in two straightforward ways, depending on your pool or spa system:

RRP 695 €

*Intelligent hardware that
supports both local and
internet-based communication.
IP-68 rated.*

**Simple, helpful, and makes your
everyday life much smoother!**

Our vision at Zavepower

We know how it is. You buy a spa or a pool to relax, to create a space where you can let go of stress and simply enjoy.

But reality often turns out differently – chemicals to keep track of, skyrocketing energy costs, and a feeling that your spa or pool demands more from you than it gives back.

This is exactly where Spapilot and E.W.A. come in.

Whether it's your spa or your pool, our innovative solutions take care of the hard work for you, so you can focus on what matters most – enjoying the moment.
