

Smarter spa ownership starts here

Lower energy costs. Less effort. Fully automatic

SPAPILOT

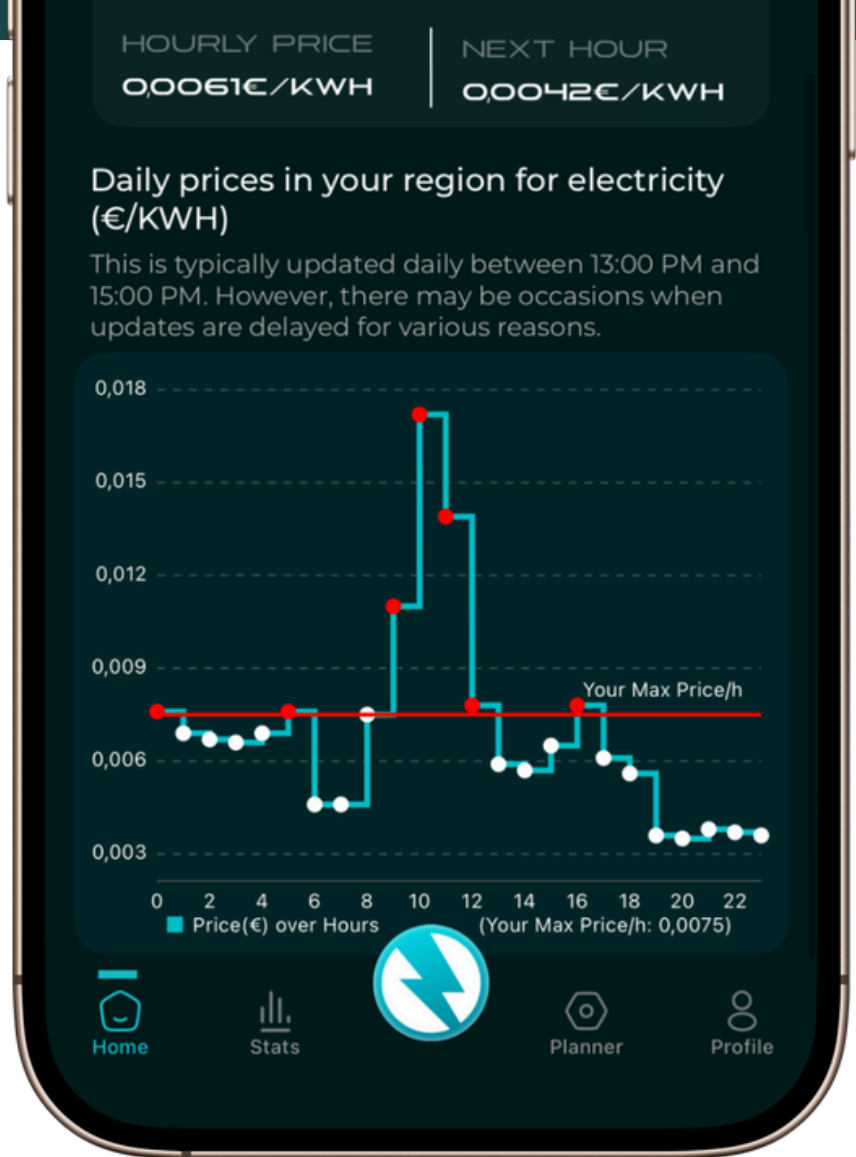

Spapilot takes care of your spa – even when you don't.

It automatically plans heating to reduce cost and wear, without you having to manage schedules or prices daily.

Less thinking.
More enjoying.

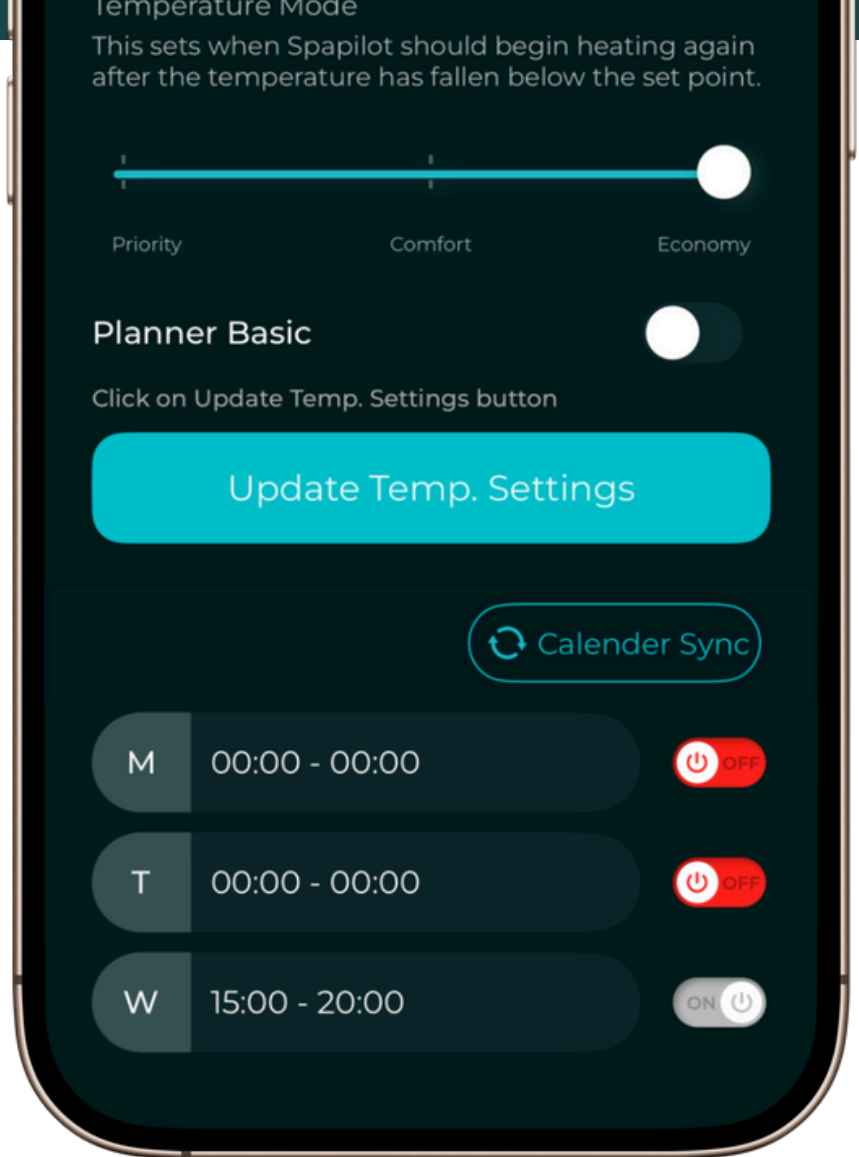

STAY IN CONTROL OF YOUR ENERGY COSTS

- COST CONTROL

Spapilot automatically avoids expensive hours and spreads heating intelligently – so your spa is ready when you need it, without unnecessary costs.

“You don't have to think about your spa anymore.”

ALWAYS READY. NEVER WASTING ENERGY.

- PLANNER

Spapilot prepares your spa in advance and avoids unnecessary heating when it's not needed.

You don't need to adjust it daily – Spapilot adapts automatically.

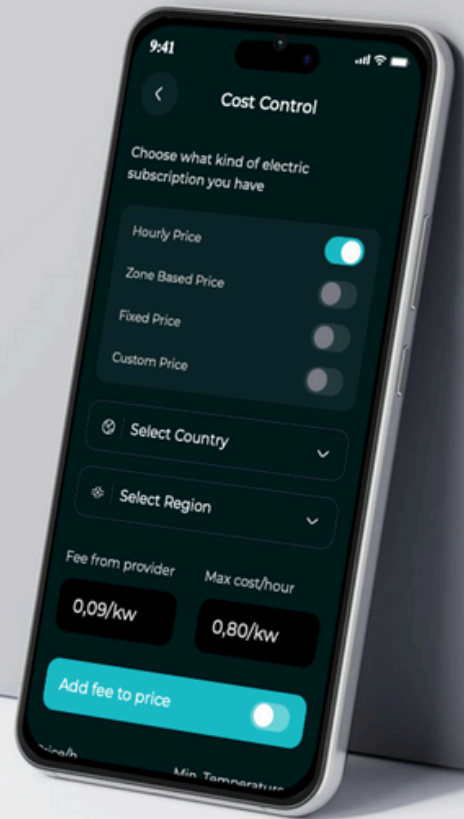

LIVE CONTROL INSTANT COMFORT WHEN YOU WANT IT

Want to use your spa right now?
Activate Instant Heating and enjoy – planning resumes automatically afterward.

Designed to protect your spa

Spapilot works together with your spa's built-in safety systems to ensure reliable operation and water quality at all times.

Enjoy your spa.
Let Spapilot handle the rest.

Smart energy control that works
quietly in the background.
