# About SpaPilot and Savings

## SpaPilot: Innovative Energy Optimization for Your Spa

SpaPilot optimizes energy consumption and reduces costs in spa and pool management. With advanced technology and smart algorithms, SpaPilot saves money and reduces environmental impact.

### How SpaPilot Saves Energy and Reduces CO<sub>2</sub> Emissions

- Time Optimization: Heating occurs during lower electricity price periods and with a higher share of renewable energy.
- More Efficient Heating: Prevents heat loss and adjusts the temperature based on usage.
- Reduced Standby Consumption: Optimizes energy use when the spa is not in use.

### Savings

- Up to 80% reduction in heating costs, depending on region and usage.
- Annual examples:
  - Northern Europe: €135.91 and 35.26 kg CO<sub>2</sub>.
  - Central Europe: €290.74 and 297.66 kg CO<sub>2</sub>.
  - Southern Europe: €139.32 and 131.40 kg CO<sub>2</sub>.

## What SpaPilot Offers You

- Wi-Fi Connectivity: Easily control and monitor your spa directly from our app.
- Spa Control: Manage your spa from your mobile device for ultimate convenience.
- Cost Control: Optimize your spa's energy usage with advanced cost management features, including:
  - Hourly electricity pricing.
  - Zone-based pricing.
  - Fixed rates.
  - Peak load optimization.
- Energy Tracker: A smart tracking system that provides a clear overview of your energy usage, helping you improve efficiency and reduce costs effortlessly.
- Planner: Schedule your spa usage to minimize unnecessary heating, saving energy, time, and money.
- Calendar Integration: Sync your spa schedule with your personal calendar for seamless planning without conflicts.

# COST CONTROL

## – TAKE CHARGE OF YOUR SPA EXPENSES

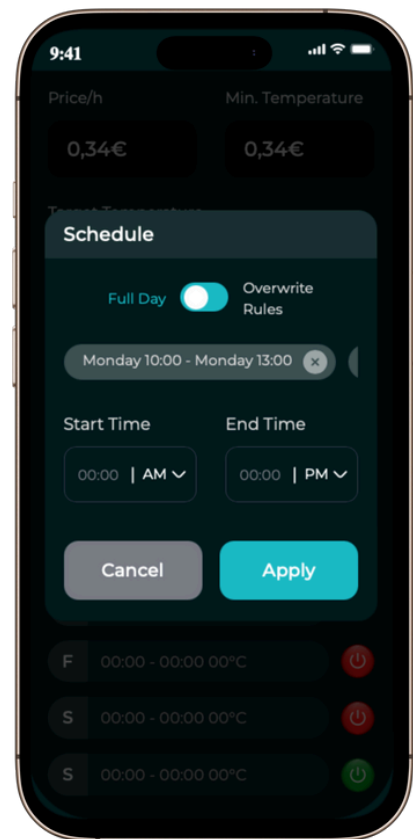

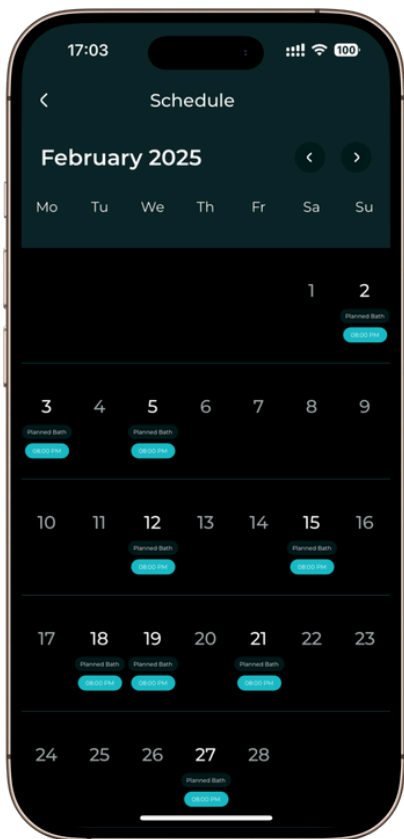

With Spapilot, you gain full control over your spa expenses. The system helps you optimize energy consumption and reduce unnecessary costs, while making your spa experience smarter and more sustainable.

- **Energy Savings:** Spapilot can reduce heating costs by up to 80%, making it beneficial for both your wallet and the environment.
- **Smart Management:** Easily adjust settings and schedule heating through the app, ensuring your spa is ready when you are.
- **Real-Time Insights:** Get a overview of your energy consumption and costs directly in the app.

Spapilot is the solution for anyone who wants to enjoy their spa without worrying about unexpected energy bills. Smart, simple, and efficient – that's SpaPilot.

# PLANNER

## – SCHEDULE YOUR SPA, YOUR WAY

With SpaPilot, planning your spa usage has never been easier. Our intuitive Planner feature allows you to schedule heating and operations directly in the app, ensuring your spa is always ready when you are – without wasting energy.

- Flexible Scheduling: Adjust heating to fit your lifestyle and avoid warming the spa when it's not in use.
- Easy Control: Set specific times and days for your spa to be ready, all with just a few clicks in the app.
- Energy Efficient: Smart planning helps reduce both energy consumption and costs.

The Planner feature in SpaPilot gives you the freedom to enjoy your spa on your terms – smart, efficient, and tailored to your daily life.

## SPA CONTROL

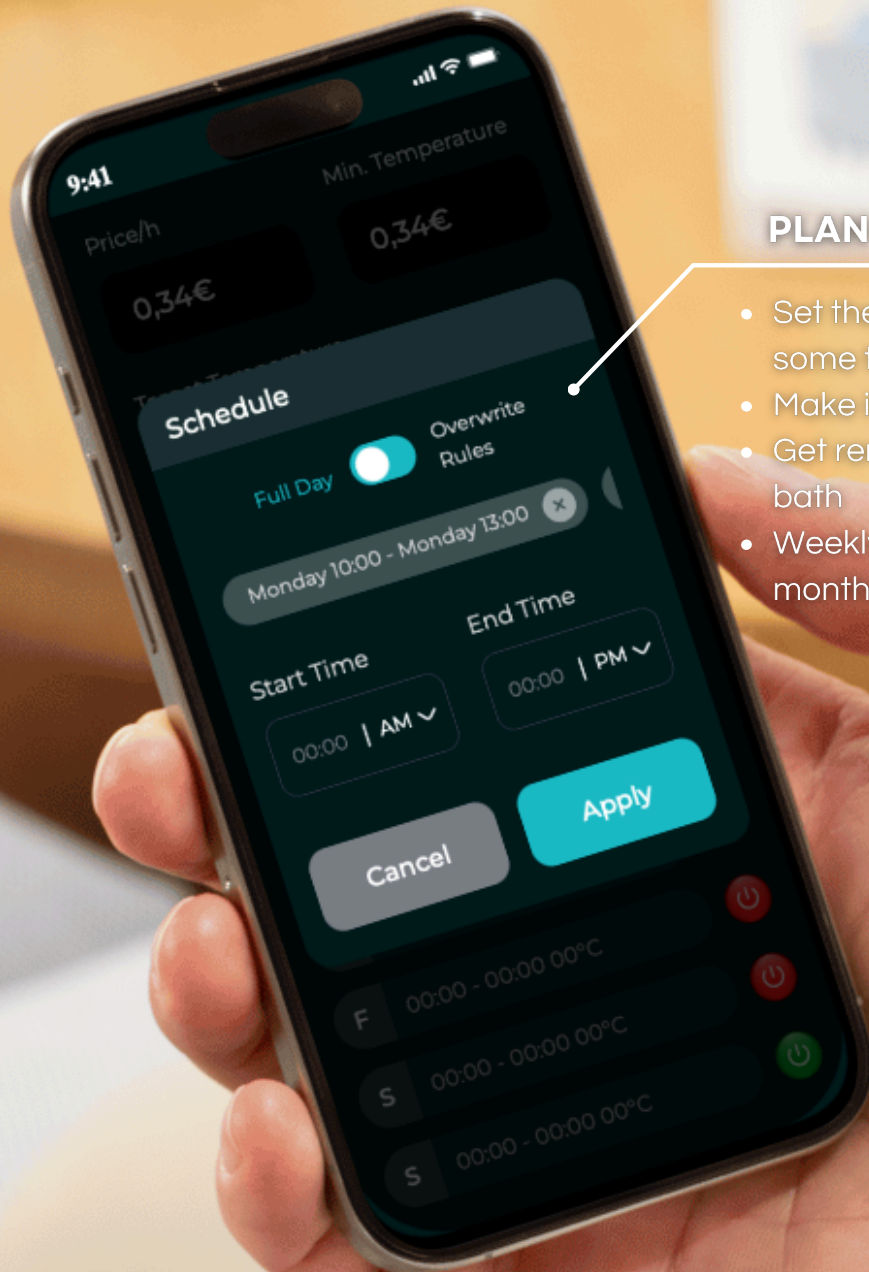

– FULL CONTROL OF YOUR SPA, ANYTIME

With SpaPilot you have total control over your spa. The Spa Control feature allows you to manage and monitor all key functions directly from your smartphone, no matter where you are.

- Remote Control: Adjust temperature, start pumps, and other settings via the app – perfect for preparing your spa before you get home.
- User-Friendly App: A simple and intuitive design makes it easy to manage your spa without any technical knowledge.
- Always Connected: With Wi-Fi connectivity, your spa is always accessible for real-time control and updates.

Spa Control lets you enjoy your spa on your terms – with simplicity, convenience, and cutting-edge technology at the forefront.

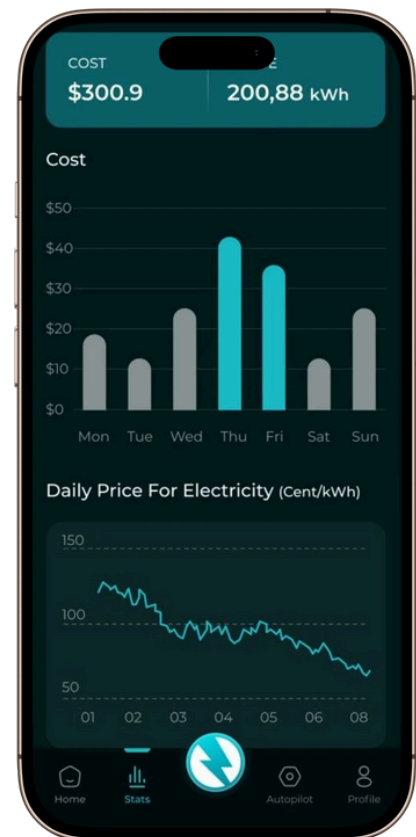

## PLAN YOUR SPABATH

- Set the best time for you to take some time for your self.
- Make it a habit
- Get reminder on your planned bath
- Weekly, Everyother week or monthly

# ENERGY TRACKER

## – KEEP TRACK OF YOUR ENERGY USAGE

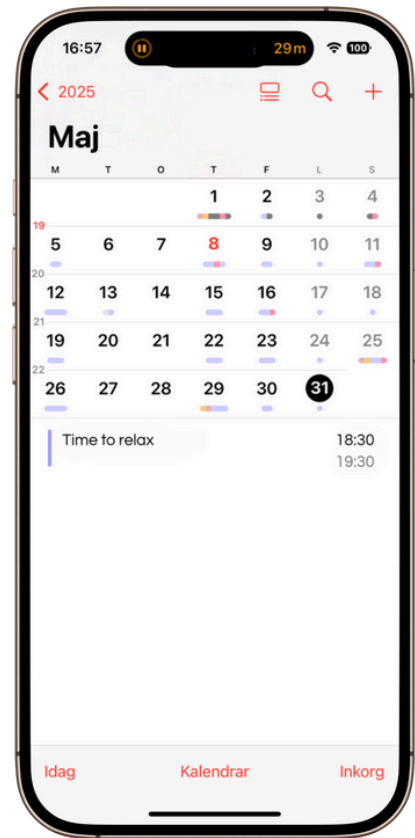

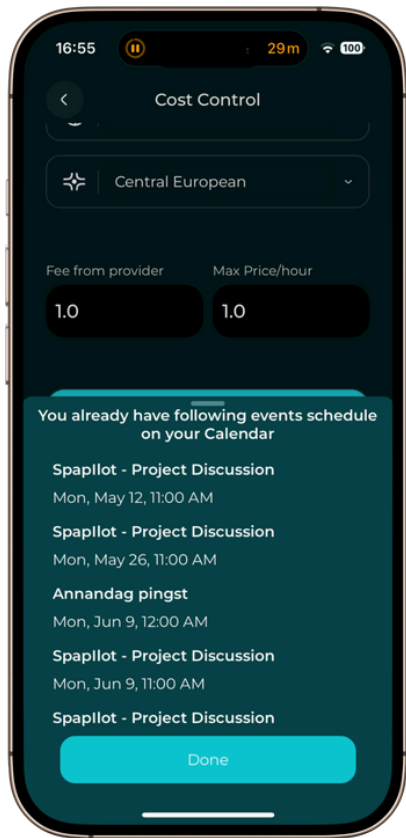

With SpaPilot Energy Tracker, you gain a deeper understanding of how your spa consumes energy. This feature analyzes your energy usage over time and provides insights to help you save money and contribute to more sustainable energy consumption.

- Detailed Overview: See how much energy your spa uses and when it's being consumed.
- Identify Savings: Discover patterns in your energy usage and find smart ways to reduce consumption.
- Focus on Sustainability: Energy Tracker makes it easy to combine comfort with environmental awareness, so you can enjoy your spa guilt-free.

Energy Tracker is designed to make energy savings simple and accessible – a smart solution for both your wallet and the planet.

# CALENDAR SYNCHRONIZATION

– MAKE YOUR SPA EXPERIENCE EVEN SMOOTHER

With SpaPilot, you can easily synchronize your spa with your digital calendar. This feature allows you to schedule heating and operations based on your plans, ensuring your spa is always ready when you need it – without wasting energy.

- Plan Ahead: Sync with your calendar to ensure your spa is heated at the perfect time.
- Flexibility for Your Lifestyle: Whether it's a relaxing evening or a spontaneous spa session, your spa is always ready.

With calendar synchronization, it's easier than ever to make the most of your spa experience – smart, convenient, and perfectly tailored to your needs.

## ALWAYS UP-TO-DATE

### – SMARTER WITH EVERY UPDATE

SpaPilot is built to evolve with you. Thanks to Over-the-Air (OTA) updates, your system always stays ahead with the latest features, performance improvements, and security enhancements – no need for manual updates or complicated processes.

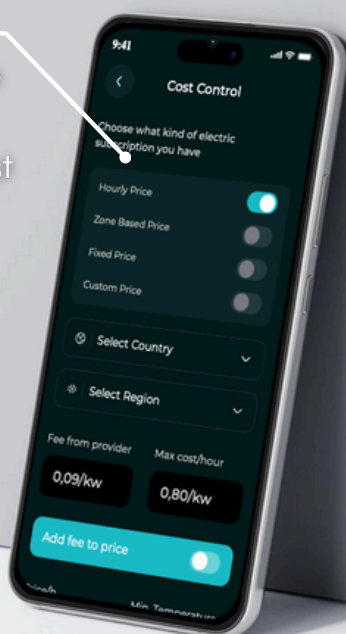

- **Seamless Updates:** OTA updates ensure your SpaPilot hardware stays current, while app updates are conveniently delivered through app marketplaces.
- **Future-Proof Technology:** Our hardware is designed to adapt and grow, ensuring compatibility with future innovations and features.
- **Enhanced Security:** Regular updates improve system security, giving you peace of mind while controlling your spa remotely.

With SpaPilot, you're not just buying a product – you're investing in a system that gets smarter, more efficient, and more capable over time.
